

# Expansion Thermometers Model IFC

WIKA Data Sheet TM 80.01

## Applications

- Machine building
- Refrigeration industry
- Food and beverage industry
- Heating, ventilation, air conditioning

## Special Features

- With capillary
- Universally applicable

Expansion Thermometer Model IFC

## Description

### Nominal size in mm

60, 80, 100, 72 x 72, 96 x 96

### Ingress protection

Case round: IP 54 per EN 60 529/IEC 529

Case square: IP 40 per EN 60 529/IEC 529

### Accuracy class

±2 % of measuring range at a reference temperature of 23 °C on case and capillary

### Scale range

-100 °C ... +400 °C

### Operating temperature

Case: -20 °C ... +70 °C

Capillary:

- Plastic covered -40 °C ... +120 °C
- Copper braided -100 °C ... +350 °C
- Stainless steel -100 °C ... +400 °C

### Scale length

Max. 270 °

### Dial

Plastic, white, lettering black

### Measuring principle

Bourdon tube system

### Capillary

Plastic covered or copper braided capillary  
Capillary either in copper or stainless steel 1.4571 depending on scale range

### Capillary length

Max. 5 m

### Capillary outlet

Lower back

### Case

Plastic (ABS)

### Type of mounting

Panel mounting with clamp

## Options

- Case steel
- Case squared version
- Panel mounting flange
- Other design of connection
- Other case dimensions

## Dimensions in mm

### Standard version

## Design of connection

### Plain stem (without thread), SF94

Cu-alloy

Stem length = variable

Stem diameter  $\varnothing d = 6, 8, 8.5, 10$

### Male nut, SF91 / SV20

Cu-alloy, R  $\frac{3}{8}$

Stem length = variable

Stem diameter  $\varnothing d = 6, 8, 8.5, 10$

### Connection nut with fitting SF91 / SV19

M14 x 1.5, R  $\frac{3}{8}$ , R  $\frac{1}{2}$ , R  $\frac{3}{4}$

Cu-alloy

Stem length = variable

Stem diameter  $\varnothing d = 6, 8, 8.5, 10$

## Ordering information

Model / Nominal size / Scale range / Type of contact / Switching points / Capillary, -length / Design of connection/ Options

Modifications may take place and materials specified may be replaced by others without prior notice.

Specifications and dimensions given in this leaflet represent the state of engineering at the time of printing.
